

Meeting 1

This is the summary of the first meeting held with representative from institute A. The table summarizes the purposes, main topics discussed, and outputs of the meetings.

Meeting 1	
Stakeholders	Institute A; representative A1.
Topics of discussion	We initiated discussions regarding defining the domain of reference of the ClimOO Ontology. We engaged with a stakeholder regarding perspectives on sustainability and related frameworks of reference, agri-food systems of interest, primary features to address with regard to plastic pollution and climate change, and possible data to interoperate.
Stakeholder perspective on sustainability	Sustainability as balance. Focus on balancing resources. Hans Carl von Carlowitz's view on sustainability. <i>"Sylvicultura oeconomica, oder haußwirthliche Nachricht und Naturmäßige Anweisung zur wilden Baum-Zucht"</i> (1713)
Framework of reference on sustainability, plastics, and climate change	Hartmann et al. (2019). Private normative frames regarding environmental performance assessment, and plastics analysis.
Agriculture system of reference	South Tyrol region. To further discuss with other stakeholder institutes.
Relevant system stakeholders	The Autonomous Province of Bolzano–South Tyrol (Italy), in particular, the “Incarico speciale complesso "Sostenibilità"” office. https://home.provincia.bz.it/it/contatti/8796 To further discuss with other stakeholder institutes.
Primary features to address concerning plastic pollution and climate change	Types of plastics and extent in food systems, sources, and sinks. Plastic threats in agriculture. Alternative to plastics. To further discuss with other project partners.
Data of reference	To further discuss with other stakeholder institutes.
Relevant projects	https://www.research-alliance-for-sustainability.it/projects/
